

2001 Competition Rules for the National Science Bowl®

Eligibility Rules

1. Each competing team consists of four student members and may also include one student alternate. To be eligible to compete, a student must be enrolled for the current school year in grades nine, ten, eleven or twelve at the team's school, and **be less than 20 years of age or receive a special waiver from the Department of Energy.**
2. No school may compete in more than one regional competition.
3. To be eligible for the National Science Bowl® finals, a student must have competed on the team that won the Regional Science Bowl®.
4. The winning team from each regional tournament is invited to participate at the National finals May 4-7, 2001. By **March 9, 2001**, the team's coach is required to inform the event coordinator of its availability to participate at the Nationals. All teams must arrive and depart on the designated dates and be in attendance throughout the duration of the National Science Bowl® weekend. If the entire winning regional team is unable to participate at all activities, the second place team will replace them. Please be advised that there will be no *exceptions* to this rule other than unanticipated medical emergencies. Any waiver must be approved by the National Coordinator. **No waivers will be considered after April 13, 2001.**

Competition Structure

5. The nationals contest will use a round robin format for the preliminary rounds and a double elimination format for the final rounds. For the preliminary rounds at the Nationals, teams will be placed in divisions by drawing lots with the number of teams per division as equal as possible. The specific number of divisions and the number of teams in each division will depend on the number of teams participating in the competition. Each team will play every team in its division. At the end of each game, regardless of the overall score, two points are awarded for a win; one point for a tie; and zero points for a loss. There will be no tie break questions during the round robin matches.
6. The top "x" teams in each division will advance to the double elimination format final rounds. The number of teams from each division advancing will be determined after the total number of teams participating is known. The double elimination will include approximately sixteen teams based on the number of divisions in the preliminary round. Preliminary rounds **ONLY** determine eligibility for the final rounds, **not position in the draw.**

7. The final portion of the nationals contest will use a double elimination format. No advancing team is eliminated from this segment of the competition until it has lost two matches. First round opponents for the final rounds will be determined by drawing lots, regardless of where the team finished in its division. After this, a competition flow chart will be followed to determine opposing teams.
8. Regional competitions have the option of choosing their tournament style, e.g. only double elimination, only round robin, or a combination of both. However, it is strongly recommended that both a round robin and a double elimination segment be included since the nationals will have both.

Rules of the Game

9. Two types of questions will be used: toss-up and bonus questions. A toss-up question, which may be answered by any member of either team that is playing, must be answered correctly in order for a team to be offered a bonus question.
10. No team will have more than one opportunity to answer a toss-up question.
11. Questions are either multiple choice or short answer. **The only acceptable answer to a multiple choice question will be one of those read by the moderator.**
12. On toss-up questions, the first player on either team to activate the lock-out buzzer system wins the right to answer the question except that no player may buzz in until **AFTER** the moderator has identified the subject area of the question. Before answering the questions, the team member must be **verbally recognized** by the moderator **or scientific judge**. ***(Before the match, this person will be identified.)*** If not recognized, it is treated as a non-answer and the moderator will not indicate whether the answer was right or wrong. **The question is reread in its entirety to the opposing team which is then given the opportunity to answer both it, and if correct, the bonus question.**
13. On toss-up questions, no consultation among team members may occur.
14. Should a player answer a toss-up question before being verbally recognized or should consultation among any of the team members occur, any answer given does not count (the moderator does not say whether the answer given was correct or incorrect) and the team loses the right to answer the toss-up question. The question is then offered to the opposing team.
15. On a toss-up question, the first answer given is the only one that counts. However, if a participant gives both a letter answer and a scientific answer, **both parts must be correct.**

16. If the answer to a toss-up question is wrong and the question was completely read, the other team is given the opportunity to answer the toss-up question, **unless time expires before the second team has buzzed in**. The second team is allowed a full 5 seconds to *buzz* in after the first team has answered incorrectly or has answered without being recognized, unless time expires.
17. The answer to the bonus question must come from the team's captain including when the question has been interrupted. Moderators should ignore an answer from anyone but the captain on the bonus question.

Timing Rules

18. The match is played until either the time expires or **all the tossup questions have been read**. Regional competitions will have two 8 minute halves with a 2 minute break (**halves at the Nationals are 10 minutes**). Each half begins with a toss-up question.
19. After reading a toss-up question, the moderator will allow 5 seconds for the two teams to respond before proceeding to the next toss-up question. Timing begins after the moderator has completed reading the toss-up question.
20. Once read in its entirety, a question will not be re-read.
21. A participant who has *buzzed* in on a toss-up question must answer the question promptly after being verbally recognized by the moderator *or scientific judge*. After recognizing a participant, the moderator will allow for a natural pause (up to 3 seconds), but if the moderator determines that stalling occurred, the team loses its opportunity to answer the question and it is offered to the opposing team if eligible.
22. After a team member has answered a toss-up question correctly, the team is given the opportunity to answer a bonus question. The team will have 20 seconds to begin to give its answer to the bonus question. Consultation among team members is allowed on bonus questions.
23. On a bonus questions, the signal "5 SECONDS" will be given by the timekeeper after 15 seconds of the allowed 20 seconds have expired. Additionally, the timekeeper will indicate the end of the 20-second bonus period by saying "TIME". If the team captain has not begun the response before the timekeeper calls "TIME", the answer does not count. If the team captain has begun the response, he/she may complete the answer.

Scoring

24. Toss-up questions are worth 4 points, and bonus questions are worth 10 points.
25. If a toss-up question is interrupted, the player recognized, and the answer correct, the team will receive 4 points. If the answer is incorrect, 4 points are added to the opposing team's score, the question is reread in its entirety, and the opposing team has an opportunity to answer the toss-up question with the chance to answer the bonus question if correct.
26. If the moderator inadvertently gives an answer to a toss-up question without giving either team a chance to respond, no points are awarded and the moderator goes on to the next toss-up question.
27. If a toss-up question is interrupted, the player is **NOT** recognized and blurts out an answer, the result is a non-answer. No penalty points are awarded to the opposing team. The moderator will not indicate whether the answer was right or wrong and the question is reread in its entirety to the opposing team.
28. If the moderator inadvertently gives the answer to a toss-up question before allowing the second team to respond (after an incorrect answer, or an answer given without the team member having been recognized) the next toss-up question will be read to the second team in place of the inadvertently answered question.

Summary of Scoring:

Type of Question	Points Awarded
Toss-up	+4 pts, & eligible for bonus
Bonus	+10 pts
Incorrectly Answered Interrupted Toss-up	+4 pts to opposing team
Unrecognized Interrupted Toss-up or Unrecognized Toss-up	+0 pts

Challenges

29. **Challenges must be made before the moderator begins the next question.**
All challenges must come from the team members who are actively competing. The alternate and/or the coach may not object verbally or by signal. If either the alternate or the coach objects verbally or by signal to the active team members, the challenge will not be allowed. All decisions of the judges are final.
30. Should a question or challenge arise during a competition, the competition and the clock will be stopped until the question is resolved. Once the question has been resolved, the match will continue from that point. Should the moderator decide that some time was lost due to the interruption, the moderator has the right to put the appropriate amount of time back on the clock.

When Time Runs Out

If time runs out in the contest or half, the following rules apply:

The question has been read completely --

31. If the question has been completely read, but neither team has buzzed in, the game or half is over.
32. If the question has been completely read, a player has buzzed in and is recognized before answering, and gives a correct answer the teams gets to answer the bonus question. The half or game is then over.
33. If the question has been completely read, a player has *buzzed* in and is recognized before answering, but gives the wrong answer or answers before being verbally recognized, the game or half is over.
34. If the question has been completely read, a player has buzzed and time is called before the player has been recognized, the moderator **or scientific judge** will verbally recognize the player. If the player gives a correct answer the team gets to answer the bonus question. If an incorrect answer is given or answer before being verbally recognized, the game or half is over.

The question has **NOT** been read completely before time runs out -

35. If the question has not been completely read by the moderator and neither team has buzzed in (interrupted), the game or half is over.
36. If a team member buzzes in before time is called, **interrupting** the reading of the question, is verbally recognized and answers the question correctly, the team gets to answer the bonus question. The half or game is then over.

37. If a team member buzzes in before time is called, interrupting the reading of the question and is verbally recognized, but answers the question incorrectly, penalty points are awarded, the question is reread for the other team which is then given the chance to answer both it and, if correct, the bonus before the contest or half is over.
38. If a team member buzzes in before time is called, is not verbally recognized, and blurts out the answer, the answer is not accepted but no penalty points are awarded. The question is read in its entirety for the other team which, if it answers correctly, also is given a chance to answer the bonus question before the contest or half ends.

Rules for the End Round Robin or Double Elimination

39. In the event that the required number of teams from each division are not clearly identifiable (resolution is necessary only between teams tied for last position(s)), a tie-break procedure in the following order will be used:
 - i. Head to head won/loss record
 - ii. Fewest losses
 - iii. If two (2) teams are still tied, there will be a five toss-up question run-off (interrupt penalty in effect). No bonus questions will be used during this segment of the competition. If still tied, another five toss-up question run-off will be used, etc. until the advancing team is determined.
 - iv. If more than two teams are tied, each team, in separate rooms, will be given a series of ten toss-up questions (no bonus questions will be used during this segment of the competition). The usual five (5) seconds will be allowed for a competitor to buzz in after the question is completely read. There are no interrupt penalties but also no reason to interrupt since all ten questions will be read. Scoring will be based on the number of questions right minus the number wrong. If two or more teams are still tied, procedure (iii) or (iv), as appropriate, will be used until the advancing teams are determined.
40. If the score is tied (in the double elimination phase only) at the end of the regulation time period, a series of five toss-up questions will be used to break the tie. Interrupt penalties are in effect. Round robin matches may end in a tie as explained in rule 5 above.

Miscellaneous Rules

41. Substitutions may be made only at the half.
42. No one in the audience may communicate with participants during the match; communication will result in ejection from the competition room.
43. If someone in the audience shouts out an answer, the question will be thrown out (as will the person) and the moderator will proceed to the next question.
44. Prior to each match, the two team coaches will introduce themselves to each other and will sit together in the back row of the competition room.
45. No notes may be brought to the competition table. Nothing may be written before the clock starts. Scratch paper will be provided at the beginning of each match and collected at half-time and at the conclusion of the match.
46. Calculators are not permitted.
47. Members of the audience will not write down the questions/answers the moderator reads or use any electronic recording or transmitting device during the match. If this occurs, the individual(s) will be asked to leave the competition room.
